RE: Letter of Recommendation and Appreciation

Dear Sir,

I previously had the pleasure of working with Robert Miller from your company. Robert provided me with a quote for an upcoming roof replacement that I am in need of. The quote was very competitive and thorough, and allowed for two options for me to consider. While I'm putting off this replacement until the spring, I did have Robert and his crew here at my facility repairing some problem areas of my roof that were done by someone else and the repairs were completed very professionally. I will be calling Excel Roof Systems for any future roofing needs. Great Job!!

Sincerely,

Ken Hacker
